### 📁 PROJECTS

**Inventory Management Systems, React.js and Node.js** 🔗

July 2023 – October 2023  
I developed a significant project focused on creating a business tool used in production at a local candy store. My main goal was to provide an asset that would ensure better control of merchandise inventory and monetary inflows and outflows. I took responsibility for implementing the front-end, using React to create a more efficient interface, and the backend using Node.js. I dedicated myself especially to optimizing loading speed and a smoother navigation experience, ensuring a more intuitive and pleasant interaction for users.
